Dear Sir/Madam

This letter is in response to a request for information about the origin of materials used in the manufacture of GESTRA AG products.

While Spirax-Sarco Engineering plc, GESTRA' s parent company, does not trade on a US exchange, and is therefore is not obligated by the US Securities and Exchange Commission to make disclosures regarding conflict minerals under the Dodd-Frank Act, GESTRA AG understands the importance of the issue and is committed to working with our customers to aid them in compliance with the law.

Spirax-Sarco Engineering plc and its affiliates support the objectives of the Dodd-Frank Act related to conflict minerals and, to that end, is presently conducting due diligence within its supply chain on the source and chain of custody of the applicable conflict minerals. We will provide details of this due diligence process and information gleaned from that process upon its completion.

Yours sincerely,

GESTRA AG

Dr. Martin Kraum  
General Manager GESTRA Supply
